Shandong Fenghe Furniture Co., Ltd. was founded in 2012 and entered the furniture industry in 2018. It was registered and established in 2021, covering an area of 11,000 square metres and located in Yangxin, Shandong. It integrates the sale of classical furniture, new furniture design, production and research and development, wholesale and retail, and exhibition.

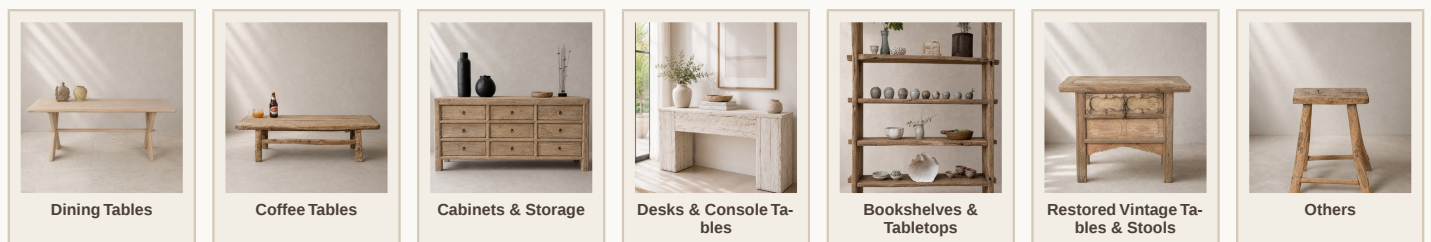

The company adopts original ecology, century-old elm wood door panels, and ancient high-end wood. The furniture and handicrafts are meticulously crafted by designers, senior carpenters, and carvers, perfectly integrating Eastern classical craftsmanship with Western European style art. Over the years, it has won the appreciation of clients at home and abroad.

The furniture produced by the company is led by green, environmental protection, and health and safety. We strictly control the selection, disinfection, and sterilisation of wood, and use water-based wall paint with zero formaldehyde and zero pollution for furniture finishing. We emphasise stability, practicality, and sustainability, relying on strict quality control, distinctive design, traditional handcraft, modern management, attentive service, and efficient delivery times. Our products are exported to many countries around the world and are highly favoured by customers.

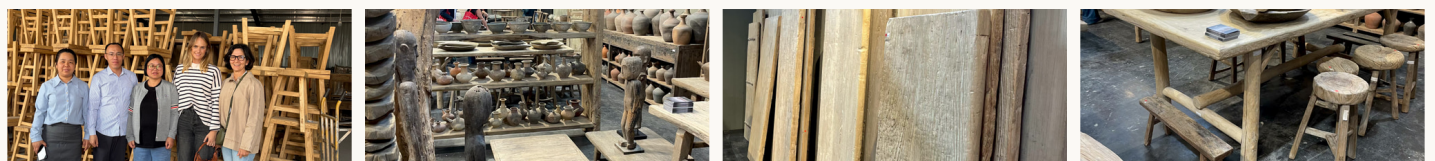

The company has more than 30 excellent management and sales professionals at home and abroad, and has offices and sales networks in more than 10 countries and regions including the United States, the United Kingdom, France, and Spain. The company focuses on reputation, quality, and after-sales service, providing high-quality services with integrity.

EXHIBITIONS & CLIENT VISITS

WHAT OUR CLIENTS SAY

"The quality of the elm wood dining table exceeded our expectations. Solid craftsmanship and a beautiful finish — our clients in London love it."

James M.
Interior Designer, UK

"We have sourced from Fenghe for three years. Reliable delivery, honest communication, and furniture that photographs beautifully for our showroom."

Sarah L.
Furniture Retailer, Manchester

Product Index

Explore seven solid-wood collections shaped by traditional joinery, restored timber character and practical proportions for contemporary homes and commercial interiors.

Characterful restored flower tables and side cabinets with a life before the showroom.

2 PIECES IN THIS COLLECTION

07

Others

Restored stools and earthenware jars & baskets that complete solid-wood interiors with authentic texture.

3 PIECES IN THIS COLLECTION

01 Dining Tables

Solid wood dining tables for family gatherings and entertaining.

FH-DININGTA / FENGHE COLLECTION

Dining Table

THE EVERYDAY TABLE

This straightforward dining form is shaped around daily life: generous knee space, a visually light trestle and a surface that invites shared meals. Its honest construction recalls rural worktables whose beauty came from usefulness and continual handling.

CRAFT DETAIL

Angled braces strengthen the base while giving it a distinctive profile.

TRADE APPLICATION

A versatile core-range table for residential dining, relaxed hospitality and mixed-chair schemes.

FH-GRECIAND / FENGHE COLLECTION

Grecian Dining Table

CROSS-CULTURAL CLASSICISM

A sculptural pedestal gives the table a sense of ceremony and opens the perimeter for flexible seating. Its classical reference is interpreted through solid timber and a restrained finish, creating a meeting point between European form and Chinese workshop craft.

CRAFT DETAIL

The central support keeps corner legs away from seated guests.

TRADE APPLICATION

A statement format suited to premium dining rooms, boutique hotels and private hospitality spaces.

01 Dining Tables

Solid wood dining tables for family gatherings and entertaining.

FH-LARGEDIN / FENGHE COLLECTION

Large Dining Table

MADE FOR GATHERING

Length is the defining luxury of this table. Designed for extended family meals and generous hospitality, it offers a continuous landscape of grain while the simple frame keeps attention on the people, food and objects gathered across its surface.

CRAFT DETAIL

Thick square legs provide the visual and structural weight required by the top.

TRADE APPLICATION

Designed for communal dining, restaurant private rooms and generous showroom installations.

FH-ROUNDIN / FENGHE COLLECTION

Round Dining Table

A SYMBOL OF TOGETHERNESS

The circle carries a long association with harmony and completeness in Chinese culture. At the table it also has a practical effect: every guest faces the centre, conversation moves easily and no seat is treated as the head.

CRAFT DETAIL

A single pedestal frees the perimeter for flexible chair placement.

TRADE APPLICATION

The circular plan supports conversation-led dining, meeting spaces and compact hospitality layouts.

02 Coffee Tables

Handcrafted coffee tables in distinctive wood finishes.

FH-ANTIQUEC / FENGHE

Antique Coffee Table

PATINA & MEMORY

The softened surface and compact proportions give this table the atmosphere of a piece gathered over time. It works especially well beside linen upholstery, hand-thrown ceramics and other materials that become richer through use.

CRAFT DETAIL

A low, sturdy frame keeps the silhouette calm and grounded.

FH-CUBANCOF / FENGHE

Cuban Coffee Table

MASS & PROPORTION

Broad planes and block-like supports give this coffee table a distinctly architectural presence. The design relies on proportion rather than ornament, making the irregularities of reclaimed-looking timber and hand finishing the principal decorative feature.

CRAFT DETAIL

Deep-set supports emphasise the generous thickness of the top.

FH-SAUDICOF / FENGHE

Saudi Coffee Table

HOSPITALITY AT A LOW LEVEL

This broad, low table is designed for relaxed rooms organised around generous seating and shared hospitality. Its substantial top can hold trays, books and serving pieces, while the simple base prevents the heavy timber from feeling ornate.

CRAFT DETAIL

A wide footprint gives the piece stability in large seating arrangements.

03 Cabinets & Storage

Display cabinets, sideboards, and storage furniture.

FH-ELMNINED / FENGHE COLLECTION

Elm Wood Nine-Drawer Desk

MERCHANT'S ORDER

Nine individually framed drawers create the ordered facade of a merchant's cabinet, where documents, textiles and valuables once required careful classification. Prominent elm grain softens that formality and makes every drawer front subtly different.

CRAFT DETAIL

Ring pulls keep the wide facade quiet and historically sympathetic.

TRADE APPLICATION

A strong showroom anchor with practical storage for dining, living and retail display settings.

FH-FOURDOOR / FENGHE COLLECTION

Four-Door Two-Drawer Lacquer Cabinet

THE LANGUAGE OF LACQUER

Layered dark pigment and rubbed edges evoke the depth of traditional lacquered furniture without pretending to be an antique. The worn-looking finish brings movement to the broad doors and creates a dramatic counterpoint to pale, contemporary interiors.

CRAFT DETAIL

Hand-worked tonal variation ensures that no two surfaces read identically.

TRADE APPLICATION

The dark patina provides a high-contrast accent for pale residential, hotel and retail interiors.

03 Cabinets & Storage

Display cabinets, sideboards, and storage furniture.

FH-FOURDRAW / FENGHE COLLECTION

Four-Drawer Four-Door Cabinet

HOUSEHOLD GRANDEUR

The wide, symmetrical arrangement draws inspiration from substantial storage cabinets found in prosperous Ming and Qing households. Four upper drawers organise smaller possessions, while the lower cupboards provide generous space for tableware, linens or media equipment.

CRAFT DETAIL

Balanced door and drawer spacing gives the long cabinet visual authority.

TRADE APPLICATION

Generous concealed storage makes this suitable for larger residential and contract specifications.

FH-FOURDRAW / FENGHE COLLECTION

Four-Drawer TV Cabinet

OLD FORM, NEW FUNCTION

A traditional framed facade is lowered for contemporary media use. Drawers keep controls and accessories ordered, while the central doors conceal equipment, allowing modern technology to sit within a room without dominating its character.

CRAFT DETAIL

Low proportions preserve clear sightlines across the living space.

TRADE APPLICATION

Low proportions work well in media rooms, serviced apartments and hospitality lounge schemes.

03 Cabinets & Storage

Display cabinets, sideboards, and storage furniture.

FH-GLASSBOO / FENGHE

Glass Book Cabinet

DISPLAY & PROTECTION

Glazed doors turn storage into a curated display while helping protect books, ceramics and collected objects from dust. The upright format has the composed presence of a scholar's cabinet but remains light enough for contemporary rooms.

CRAFT DETAIL

Multiple panes break down the scale and frame individual objects within.

FH-MEDITERR / FENGHE

Mediterranean Glass Display Cabinet

ARCHES & LIGHT

Repeated arches soften the cabinet's height and bring a Mediterranean ease to the disciplined timber frame. Glass keeps the interior connected to the room, making the piece suited to colourful ceramics, books and objects with personal history.

CRAFT DETAIL

The arched glazing creates a graceful rhythm across the doors.

FH-TWODRAWE / FENGHE

Two-Drawer Two-Door Cabinet

COMPACT HOUSEHOLD STORAGE

The classical division of drawers above doors compresses the logic of a much larger Chinese cabinet into a versatile scale. It can serve as a bedside cupboard, small dining cabinet or characterful storage piece in an entrance.

CRAFT DETAIL

Framed doors and recessed panels add depth without applied decoration.

04 Desks & Console Tables

Writing desks, console tables, and entryway furniture.

FH-CONSOLE1 / FENGHE

Console Table

A NARROW SILHOUETTE

Its long, shallow profile recalls Chinese altar tables, traditionally positioned against a wall for vessels, flowers and meaningful objects. Here the same elegant proportion becomes useful in an entrance, behind a sofa or along a gallery wall.

CRAFT DETAIL

Substantial legs balance the visually light, elongated top.

FH-MULTIDRA / FENGHE

Multi-Drawer Side Table

THE APOTHECARY RHYTHM

A sequence of small drawers recalls herbal medicine chests and apothecary cabinets, where many ingredients had to be stored separately and found quickly. Reinterpreted at console height, that rhythm becomes both useful storage and a strong graphic facade.

CRAFT DETAIL

Individual ring pulls reinforce the precise repetition of the drawer fronts.

FH-WRITINGD / FENGHE

Writing Desk

THE RITUAL OF FOCUS

Quiet proportions and a clear work surface connect this desk to the restrained furniture of the scholar's studio. Its purpose is deliberately simple: to create a composed place for writing, reading and concentrated work.

CRAFT DETAIL

Slender legs and discreet storage keep the working area visually uncluttered.

05 Bookshelves & Tabletops

Bookshelves and live-edge tabletops in premium hardwood.

FH-BOOKSHEL / FENGHE COLLECTION

Bookshelf

OPEN ARCHITECTURE

Rather than concealing its contents, this bookshelf treats books and objects as part of the composition. Repeating uprights create a steady rhythm, while open bays allow light to pass through and keep a large storage piece visually breathable.

CRAFT DETAIL

Visible framing celebrates structure instead of hiding it behind panels.

TRADE APPLICATION

Open display bays suit books, ceramics and curated retail collections without visually closing the room.

FH-LIVEEDGE / FENGHE COLLECTION

Live Edge Tabletop

THE TREE'S ORIGINAL LINE

The outer edge follows the natural contour of the timber rather than forcing it into a perfect rectangle. Knots, colour shifts and small deviations remain visible, recording the growth of the tree and making each finished top materially unique.

CRAFT DETAIL

Careful seasoning and finishing stabilise the slab while preserving its character.

TRADE APPLICATION

Available as a material-led surface for custom bases, project dimensions and hospitality counters.

06 Restored Vintage Tables & Stools

Characterful restored flower tables and side cabinets with a life before the showroom.

FH-ANTIFLOW / FENGHE COLLECTION

Antique Flower Table

RESTORED FOR DISPLAY

Once used for flowers and ceremonial objects, this restored flower table keeps the compact stance and weathered surface of its earlier life. It suits showroom vignettes, entrance compositions and interiors that want timber with a visible past.

CRAFT DETAIL

Aged colour and softened edges remain part of the finished character.

TRADE APPLICATION

A character piece for retail vignettes, residential entrances and display-led interiors.

FH-SIXDOOR / FENGHE COLLECTION

Six-Door Side Cabinet

RESTORED STORAGE RHYTHM

Six repeating doors create a calm horizontal cadence across the facade. Restored timber and measured proportions make the cabinet useful as side storage while preserving the quiet authority of older household furniture.

CRAFT DETAIL

Even door spacing keeps the long form orderly and architectural.

TRADE APPLICATION

A restored storage option for sideboards, service spaces and character-led retail walls.

07 Others

Restored stools and earthenware jars & baskets that complete solid-wood interiors with authentic texture.

FH-FLATSTOOL / FENGHE

Flat Stool

LOW AND USEFUL

A simple flat stool restored from old timber, practical as seating, a side stand or a display plinth. Its low proportions and honest construction make it easy to place beside larger furniture without competing for attention.

CRAFT DETAIL

A compact footprint keeps the piece versatile in both retail and residential schemes.

FH-OLDEARTH / FENGHE

Old Earthen Stool

EARTHBOUND TIMBER

This earthen stool retains the weight and irregular surface of furniture shaped by long domestic use. Restored rather than reinvented, it brings depth to seating corners, studios and schemes organised around material honesty.

CRAFT DETAIL

Visible grain and worn planes give the stool a grounded, tactile presence.

FH-JARSBAS / FENGHE

Jars & Baskets

TEXTURE BESIDE TIMBER

Earthenware jars and woven baskets complete solid-wood interiors with softer, hand-made texture. Grouped on tables, shelves or consoles, they add depth to retail displays and residential schemes without competing with the furniture.

CRAFT DETAIL

Natural materials pair easily with restored elm and darker lacquered finishes.

TRADE ENQUIRIES / BESPOKE ORDERS

Build your next collection with Fenghe.

From restored elm character pieces to made-to-order cabinet runs, our workshop supports retailers, interior designers and hospitality projects with considered production and export-ready service.
